

A math teacher had been teaching his class all about fractions for the past week, and now he wanted to find out how much they had been able to remember, so he asked one of the boys in the class, "If I cut a piece of meat into two pieces, what would I get?"

"Halves," answered the student at once.

"Good," said the teacher. "And if I cut each piece in half again?"

"Fourths," answered the next student.

"And if I cut it again, Robert?" the teacher went on.

"Eighths," answered Robert.

"Yes," said the teacher, nodding to the next boy. "And again?"

"Sixteenths, sir," was the answer.

"Good," said the teacher, "And once more, Lisa?"

"Thirty-seconds," answered Lisa after thinking for a few seconds.

"Yes, that's right. And again?" the teacher continued.

"Hamburger meat," answered the last student, who thought that all of these questions were becoming a little silly.
